**Easter Fun**

At Above and Beyond, we love Easter. It's a sure sign that spring has arrived, we spend time with our family celebrating Christ and oh that candy. If you love sweet treats like we do or can't wait to see that first colored egg, read on. Here's some little known facts about Easter.

- Easter eggs symbolize new life, resurrection, joy and celebration.
- The first Easter egg roll at the White House was hosted by President Rutherford B. Hayes in 1878. It's a tradition that continues to this day.
- Easter is the second-most candy consuming time of the year, with Halloween coming in first.
- Despite more and more offerings each year, an old-fashioned candy still reigns supreme. More than 16 billion jelly beans are eaten each Easter. Coming in at a far second are Peeps. More than 700 million are sold each year.
- How do you devour your chocolate bunny? If you are like most Americans (76%), you start with the ears. Five percent go for the feet, and another 4% start with the tail.
